Anti - Slip Glass

FOR FLOORS & STAIRCASES

Redefining glass versatility is nothing new for Omni Decor, Efi's European glass partner. And they have done it again with their new anti-slip glass which is designed for use in floor & staircase applications, having been ASTM Certified for it's friction coefficient.

Climb & Grip

DESIGN WITH A PURPOSE

The exquisite design of the etched glass in this product line serves a dual purpose as the etched design acts as the anti-slip agent. Climb (above) and Grip (right) offer a unique design element in a functional horizontal surface.
