Memphis Light Shelf

mounting instructions

1. Open carton making sure the "top" label is visible.
2. Take out fixture and remove the top glass.
3. Level wall mounting bracket to mark drill holes.
4. Secure bracket with appropriate hardware.
5. Mount/hang shelf onto bracket.
6. Secure shelf using the screws attached on the back of the shelf.
7. Reinstall top glass panel making sure that the top and bottom glass are level. If necessary, use screws on the back wall to adjust.

Note:

- Never use acid containing silicone with LEDs
- Rated load capacity: 5 lbs per 4 inches
