Veneer Edgebanding

ON THE CUTTING EDGE

Providing domestic and exotic species with a wide range of options, EFI offers competitive pricing and a short lead time. Our edgebanding is engineered in Europe and brought to your market.

Options

- coils or strips
- with and without glue
- 1.0, 1.5 and 3.0 thicknesses usually stocked
- other thicknesses produced to order
- available clear or customer color stained with UV topcoat
- "Multiplex" and "Cross Grain" available
