New Custom Glass Applications Presented by EFI for Commercial Designers and Architects

Expanded European DecorFlou® Line Ideal for Retail, Hotels and Other Modern Commercial Environments

Custom Glass Walls, LED Shelving and Accent Pieces Delight in New Colors and Designs

KERNERSVILLE, N.C.--(BUSINESS WIRE)—North America's innovative decorative glass design and manufacturing firm EFI (www.efi-us.com/commercial) announces novel applications of Omni Décor's expanded [DecorFlou® collection](#) of custom interior glass products for retail, hospitality, restaurants and other commercial design applications.

“Our newest premium European decorative glass and hardware options are ideal for a range of commercial applications and can be swiftly custom made for nearly any specification and design at our new U.S. manufacturing facility,” said Kevin Moore, president of EFI. “Architects and designers can meet even the tightest construction or renovation deadlines and have the flexibility to create one-of-a-kind pieces or hundreds of their designs.”

Ideal for showcasing products in a retail environment and creating ambiance in public spaces, such as lobbies, meeting rooms or restaurants, EFI's innovative commercial applications for DecorFlou® include:

- **[Glass walls](#)** that are either freestanding or applied to existing walls similar to a backsplash in vibrant new colors, patterns and designs.
- Endless **[retail applications](#)**, including walls, partitions, LED shelving, doors, displays and more to create the ultimate brand showcase.
- **[Accent pieces](#)** limited only by the imagination—from custom tables (including base structures) to lighted boxes to decorative cubes, even smaller custom décor pieces are now possible.

“Today’s architects and designers seek unique ways to transform functional spaces into artistic expressions in keeping with their commercial clients’ visions of branded environments,” added Brent Moore, vice president of EFI. “For retail, hotel and restaurant chains, we understand the particular challenges of creating environments that must attend to the nuances of each location.”

EFI’s unprecedented DecorFlou® custom glass offering for the North American commercial market, including eco-friendly (ISO 14001 certified) options, paired with state-of-the-art U.S. based manufacturing provides clients with unprecedented design opportunities that are scalable, high quality, affordable and expeditiously produced.
