

# Color Glass

[efi-us.com/glass/](http://efi-us.com/glass/)

From bold and vibrant hues to light and pastel shades, EFI can help you set the tone with color. We have an array of basic colours or a custom colour match process that insures you will find the color needed for your next project.

The color chips below represent our most popular prematched colors available at no additional charge.

Examples shown are provided as a quick reference and are not ideal for color critical scenarios.

Please **contact us** to order backpainted samples for accurate color representation.
